Summary

Experienced and versatile **Full-Stack Developer** with **4+ years** of expertise in backend and frontend technologies. Skilled in developing **robust, scalable web applications** using **Laravel, Node.js, Typescript, MySQL, and AWS**. Proficient in building and integrating **RESTful APIs**, managing **serverless infrastructure**, and implementing **CI/CD pipelines** with **Docker and AWS CodePipeline**. Adept with frontend tools like **Tailwind CSS, AJAX**, and React for delivering seamless user experiences. Proven open-source contributor with merged PRs in the **Laravel React Starter Kit**, demonstrating a commitment to high-quality, community-driven code.

Technical Skills

- **Languages**: Javascript, TypeScript, PHP
- **Technologies**: Laravel, React.js, Next.js, Node.js, Express.js, jQuery, Bootstrap, Tailwind, Prisma
- **Databases**: Relational (PostgreSQL), Non-Relational (MongoDB)
- **DevOps**: Docker, CI/CD, AWS (ASG, S3, EC2, RDS)
- **Testing**: PHPUnit, Pest, E2E Testing with Cypress, Jest

Experience

Vivansh infotech   June 2025 – Present
Software Developer   *Ahmedabad, Gujarat*
- Onboarded to ongoing projects, reviewing architecture built with **Node.js, Laravel**, and **MySQL**.
- Contributed to debugging and optimizing REST APIs and frontend integration.
- Collaborated with DevOps team to understand existing **CI/CD** setup using **Docker and GitHub Actions**.
- Participated in code reviews and QA for high-priority sprint tasks.

Yudiz Solutions Limited   Jan 2022 – May 2025
Web Developer   *Ahmedabad, Gujarat*
- Developed full-stack web applications using **Node.js, Express.js, Laravel, and MySQL.**
- Built REST APIs and integrated third-party services to enhance application capabilities.
- Managed AWS cloud infrastructure, including **EC2, S3, RDS, and Lambda.**
- Integrated **payment gateways (Stripe, Razorpay)** for secure transactions.
- Implemented **unit testing (Pest, PHPUnit, Jest)**, to ensure high-quality code and maintainability.
- Implemented **Docker-based** deployment and CI/CD pipelines for automation.

Adore India   May 2021 – Aug 2021
Software Engineer Intern   *Kolkata, West Bengal*
- Developed backend and frontend features using Laravel and React.js.
- Led a team, managing client interactions and requirement gathering.
- Delivered four key modules with optimized performance and usability.

Projects

Everflex Plus
- Developed a **Home Exercise Plan (HEP) & Remote Therapeutic Monitoring (RTM) system**.
- Implemented **real-time patient tracking** and therapist dashboards with **95% test coverage**.
- Created **comprehensive test suites** using Pest for unit/feature testing and Cypress for E2E testing, covering critical user journeys.
- Designed a **marketing funnel** to increase lead generation and user engagement.
- Achieved a **30% increase in therapist-patient interactions** through an intuitive UI and automation.

Fidali
- Built an **Airbnb-style property rental platform**

- Developed a **secure booking system**, implementing role-based authentication.
- Integrated **Stripe for seamless payments** and Queues for background jobs.
- Created a **Host Panel** for property owners to manage listings and earnings.

Business Network
- Engineered a **business networking platform** for entrepreneurs and professionals.
- Implemented **real-time messaging and notifications**.
- Developed an **intelligent search & recommendation system** to enhance connections.

Fleet Mart
- Created an **online vehicle selling platform** with secure authentication.
- Developed a **vehicle approval system** ensuring quality control before listing.
- Integrated a **review & feedback system** to enhance buyer confidence.

Open-Source Contributions

- **Merged PR in Laravel React Starter Kit**: Fixed **TypeScript form handling issues in** `useForm`, improving API consistency and preventing missing fields. Merged by **Taylor Otwell**.
  - **PR Link**: GitHub PR #46
- **Feature PR (Drawer Component)**: Designed and implemented a **new drawer component** to improve navigation, currently under discussion with **Taylor Otwell**.
  - **PR Link**: GitHub PR #57

Hackathon Achievements

- **Finalist**, Gujarat Industrial Hackathon 2019 at PDPU Gandhinagar.
- Competed in **Smart City Rajkot Hackathon 2021**, developing innovative solutions.

Education

Gujarat Technological University   June 2018 - June2022
Bachelor of COMPUTER ENGINEERING (CGPA: 8.65 / 10.00)   *Mehsana, Gujarat*
